

Proposal to transfer CIL money from Chilvester Hill to Calne and Bremhill Council

Strategic Planning Committee Nov 2023

1. It was agreed in the CGR discussions that unallocated CIL money from developments that sit on the border between Calne Without and another parish should be transferred to them, with 70% going to the parish in which the development resides (Calne in this case) and 30% to the one the other side of the border (Bremhill).
2. Local councils have 5 years to spend the CIL before Wiltshire Council can demand it back.
3. Calne Without Parish Council (CWPC) has just received the first tranche of three in relation to the Chilvester Hill development (£15,436.20).
4. CWPC is highly unlikely to spend this money and will therefore have to distribute it to in line with point 1 in early 2025. This would deprive Calne and Bremhill of access to the money for one and a half years, during which they could have planned to spend it. This would effectively give them only 3 ½ years to spend the money.
5. It seems unreasonable to withhold the money for 1 ½ years.
6. I propose that the money is transferred to the successor councils as soon as the asset distribution proposals are ratified by Wiltshire Council.

improvements to enhance the effectiveness of the AED deployment project.
