

Derry Hill Playground Equipment Working Group

Background

Derry Hill Playground Equipment Working Group;

Having received two quotes for equipment with a further two to come in, the Working group would like to move the project on to the next stage – public consultation. Holding drop-in sessions at the Lansdowne Hall – with the proposals on display. These sessions would be prior to the September meeting – at a date yet to be confirmed. They would be held in conjunction with the Engagement and Participation Working group consultation sessions.

Engagement and Participation Working group;

It has been identified that in order to assist with the budget setting process the new parishioners of Derry Hill and Studley Parish Council should have the opportunity to express opinions on the priorities of the new council.

In order to maximise efficiency, it is proposed to hold both the playground proposal public consultation sessions and the priorities of the new council sessions at the same time. The new parish of Derry Hill and Studley would be leafleted in order to publicise the meetings.

Request

That full council grant the request to hold the public consultations with a budget of £200 to cover hall hire and any associated printing costs.

Budget; Public participation and engagement

Power; Local Government Act 1972 S144
